HISTORY OF

VOLUME II

1992 - 2007

DEDICATION

This 15 year Supplement to the History of Enchanted Valley is dedicated to those shareholder families who have contributed their time and energy to sponsoring events that make "The Valley" the special place it is.

FOREWORD

Fifteen years have passed since the original history book of Enchanted Valley was published, but the uniqueness of this special place continues. Since this is the 40th anniversary of incorporation and 50th of the opening of Enchanted Valley the History Committee felt an update was in order. This seemed even more important since a number of the original (and even some of the more recent) shareholders have passed on. All of the original Committee members are still shareholders. Lori (Brown) Fields and Lisa (Campbell) Sewell have been added to the group. Again we make the disclaimer that we have worked hard to achieve the accuracy of the information herein, and ask if you have information to the contrary that you let one of the members know.

As Chair of the History Committee Liz Serochi recorded the events that occurred since 1992, which helped a great deal in this update. Of course we had another great resource in "Sam" Downing who seems to have an unequalled recall of so much accurate information regarding events, people, "circumstances" etc.

The Committee hopes that all who read this will find it useful and enjoyable.

CONCLUSION – 25

CORPORATE FACILITIES

The corporate buildings have had few significant changes since 1992. The bathhouses have been renovated with new roofs and interior upgrading but remain much the same. The shareholders were polled several times regarding abandoning all or some of the bathhouses and the majority believed the bathhouses still served a useful purpose especially when having a number of guests at their cabin.

In December 1992 an easement thru EV property was accorded to neighbor Charles Burton from Olson Road. Discussions regarding this issue continued until 1994. The easement was the old road to the east of cabin #9 going down to the creek. Mr. Burton built a bridge across the creek to access his property for the purpose of tree harvesting. Major harvesting was done in the summer of 1995 and minor harvesting in the fall of 2006. More extensive harvesting was being done in the spring of 2007.

In 1992 the Beautification Committee began a major cleanup of the turn-around at the top of the hill. The "Rifle Range" (as it is still often referred to) had become a collection area of discarded furniture and unused corporate materials. The area was cleaned up and the turn-around was landscaped with rocks from the creek and eventually plantings. Two trees were planted in September 1992, one in the newly designed turn-around and the other tree just to the north of this area. Further planting of 27 trees under the direction of shareholder Joe Shane was done in 1993 in this northern section, which was to become EV's Memorial Grove. Plaques are placed at individual trees in memory of loved ones with donations to help offset the cost of the trees and the upkeep of the area.

The decking of Pappy's Porch was replaced in 1995 maintaining the basic layout. The work was done by a number of shareholders and supervised by Caretaker Gene Fields. In 1996 the kitchen area of Pappy's Porch was enlarged and screened in.

"Pappy", the mascot for Pappy's Porch was donated by shareholder Jim Boyd in the late 1970's and mysteriously disappeared in 1992. "Pappy" was originally brought to EV as decoration for a luau themed dinner and just stayed around for years. When this update was

being written, the mystery of "Pappy's" disappearance was raised. It was subsequently learned that "Pappy" disappeared during the wedding rehearsal of a shareholder's son and had been in a Los Gatos garage ever since. After several phone calls "Pappy" was returned to the shareholder's son and brought back to EV. The Board will decide whether or not to place "Pappy" back in his corner on Pappy's Porch.

In 1995 shareholder Bob Mallison began a project of taking pictures of each cabin and in 1997 pictures of individual shareholders from each cabin. These pictures were placed in separate albums and are updated periodically as changes in cabin design or ownership take place.

A gazebo was built at the "turn-around" or old Rifle Range area in July 1996 and renovated in 2006. This is covered more thoroughly in the section on recreational facilities. An arbor was built below the gazebo in May 2000, and steps down to the arbor were placed in December 2001.

In February 1997 the old garage near cabin #1 was torn down because of termite damage and because it was no longer serving a useful purpose. It was not replaced.

Shareholders approved funds for re-paving Olson Road in 2000. Forty-nine percent of the cost was underwritten by the Girl Scout Camp located at the end of the road. EV contributed the next largest amount with the remainder paid by the property owners along Olson Road based on their frontage. The paving was done in October of that year.

A new Entrance sign replicating the original was designed by shareholder Ron Dadami in 2001. Although the original sign was approximately 100 feet from the San Jose-Soquel Road the new sign was placed over the road going up the hill to the parking lot.

In September 2003 shareholders approved $100.00 assessment to replace the roofs on the caretaker's cabin and the corporate office. Caretaker, Gene Fields, did the work.

A surveyed map of EV done in the 1980's by Business Representative and shareholder Charlie Lambert was adopted by the shareholders in September 2005 as the official road map of EV. New signage for the major roads in the Valley was designed by shareholder Barry Brill. The EV logo of redwoods was incorporated into each sign and these were installed in 2006. Major re-paving of the Valley's roads was approved in 2004 but because of weather conditions had to be postponed to May 2005.

A $300.00 assessment was approved at the June 2006 Shareholder's Meeting to purchase the first-ever brand-new truck. The truck was purchased in September of that year using cell phones to negotiate the best price and an acceptable vehicle.

Value of the shares was increased from $30,000.00 to $35,000.00 in September 2001 and to $40,000.00 in September 2003. Transfer fee (on cabin sales) was increased from $1000.00 to $1500.00 in September 2003.

The barbecue pit was extensively damaged in the 1989 Loma Prieta Earthquake as mentioned in the original history book. It was rebuilt to the original design soon after. In 2006 shareholder Mike McClendon redesigned and built the one currently being used.

Over the years but especially since 1992 a number of cabins have been completely rebuilt and other cabins have undergone major interior improvements. As noted in the bylaws all the plans required Board approval prior to getting approval from the County of Santa Cruz.

New water lines to lower camp were installed in 1999 completing the project of replacing the water distribution system, which was started in the late 1970's.

As many of you can recall the Store/Snack Bar had been in use since the original opening of Enchanted Valley by Al Feinstein. For many years beer was sold but this was discontinued in 1990 because the cost of the license became prohibitive compared to the amount of beer served. However the Store continued to be operated during "The Season" on a daily basis while Lou and Evelyn Ehrensberger were still shareholders. As time went on it became harder and harder to find someone to run the Store and it was decided that the Store would only be open on weekends. Various shareholders worked together stocking the Store and keeping it open for the convenience of shareholder families and their friends. Some of these shareholder workers were paid a fee for the summer and some were volunteers.

New Storage Room at Pappy's Porch-2004

New EV Sign Design and Logo-2006

2

RECREATION FACILITIES

Creek Lookout Deck

In 1995 the wooden deck of the "creek lookout" was replaced and the frame structure was repaired and strengthened. The lookout is located in the creek area to the side of cabin #5.

EV Turn-around Gazebo

In 1976 a gazebo was constructed in the turn around area (old rifle range) for use by all families. The area was cleaned up and a memorial tree area was established. This area has been used for social events, weddings, stargazing, picnics, parties etc. A lower arbor sitting area was added shortly thereafter. The gazebo was rebuilt and electrical service was added in 2006.

Fire Pit/Snack Bar Benches

In 1997 the benches around the fire pit and the snack bar were replaced with new lumber and the same original design.

Bocce Ball Court

At the EV workday in 2003 the Bocce Ball Court and scoreboard was installed near the existing horseshoe pits. A frame was built and the court was filled with a sand and oyster shell mix to provide a flat playing surface. Since the installation there have been many family groups using the court. During the summer of 2003 the first ever Bocce Ball Tournament was held and ran for two days. The first ever Bocce Tournament Champions were Carol Brill and Tom Frische who defeated Pat Oliverio and Rosemary Taormino.

Basketball Court Fence/Lawn Area

At the EV workday in 2004 a new fence was erected behind the existing basketball standard to keep balls on the court. An additional lawn area was added next to the pool deck for additional sunbathing and family enjoyment.

Basketball Standard/Backboard

At the EV workday in 2006 a new commercial grade basketball standard and backboard was installed.

Swimming Pool Apron Expansion

At the EV workday in 2006 the large hedge "bee bushes" next to the pool deck was removed. A new stone apron was added to expand the use of the perimeter pool deck. It added a seating area for adults to watch their children and an additional sunbathing area.

Swimming Pool Equipment Room

In 2006 the pool equipment room was rebuilt with closed in sides and a new roof. The room provides a secure place for the pool pump, heater and pool chemicals and supplies.

3

ACTIVITIES

Many of the traditional activities enjoyed for the past 40 years are still annual events. Some have been retired (at least temporarily) and many new events have been added. Every year, it seems, some family or group gets together and has an idea of an original event that sounds like fun, and signs up to try it out. It is with this spirit that new traditions are started and the fun continues.

One of the largest attended events was the 25th Anniversary celebration in 1992. The event took place on Saturday and Sunday, August 1st & 2nd with 235 people in attendance for the Saturday night dinner. Invitations were sent to current shareholders at that time as well as former shareholders whose addresses were available. Other activities on Saturday included morning refreshments, ice cream sundaes, champagne and hors d'oeuvres and a reception. After dinner movies were shown of EV's construction and early days. On Sunday a brunch was served.

Since the 1992 25th Anniversary "History of Enchanted Valley" book was published, there have been many changes and additions. Following are some of the new events and activities.

Improved Communication

In the past, EV communicated via meetings, mail and the telephone. In the last 15 years, the speed and accuracy of EV communications has improved greatly through use of the computer, computer email and the Internet. Other than scheduled meetings, the Board of Directors and committees stay in touch via email, sometimes on a daily basis, which has allowed them to work more efficiently and has also been less time-consuming.

Using the computer (and her photography skills), Carol Brill started publishing an EV newsletter three to four times a year. Her first black and white newsletter came out in the fall of 1999, and went to color in the summer of 2001. As more EV shareholders go online, the newsletters are sent out electronically, but some are still mailed to those

without computer access or who prefer a printed copy. This has been a great way to share announcements of all kinds between EV members as well as to feature articles of local and national interest. The EV Summer Recreation Schedule is also published and distributed in the spring.

Summer Recreation Activities

In additional to the annual events such as the Untalent Show, the 4th of July weekend wiffle ball game and kids' crafts, other events were introduced such as the kids' treasure/scavenger hunt, which got so big (and some say, challenging!) that it would take half a day to either find the treasure or collect all the items on the scavenger list.

In 2001, the Recreation Committee sponsored the first (and only) Bocce Ball Tournament on the brand-new bocce ball court.

In 2003, a flower arranging class was held on Pappy's Porch. Later that summer, before the annual Luau, shareholders had the opportunity to design and create their own leis to wear that night.

Storytelling has always flourished at EV, but especially at the Irish Dinner, when jokes, Irish tales and the resulting laughter were shared.

The Meals of EV

"Whining" and dining continues to be the celebration of choice for most. Some new dinners since 1992 include:

- Whole Lamb BBQ
- Chinese Dinner
- Christmas in June Dinner
- Jew and Gentile Breakfast
- Italian Treat Breakfast
- Irish Dinner
- 50's Dinner

The kids and teenagers also put on a Generation Gap Breakfast, complete with cereal, cold pizza and Cokes, yummy!

EV utilized a whole new area for its shareholders' dining experience. The gazebo was transformed into the site of the annual Wine Tasting and Hors d'oeurves event, and has since hosted a Pizza, Salad and Beer dinner as well.

"Surprise Dinners" were another innovative event held in recent years at EV. In 2005, it was the "Academy Award Oscar Night," and the well-received "Mash 4077 Dinner" in 2006.

The weekend and holiday recreational activities continue to be the main focus of "the season" which includes the days between Memorial Day and Labor Day.

AWARDS

President's Awards

At the September 1994 Shareholders' Meeting, President Bill Green decided to begin a tradition of the President's Award. This award is given to shareholder(s) who have gone over and above the call of duty. It is presented at the Annual September Shareholders' Meeting. A plaque was made to display the names of the recipients and hangs in Enchanted Valley's office.

Following are the recipients from 1994 to 2006:

1994	Liz Serochi	Awarded by Bill Green, President
1995	Joe Serochi, Joe Shane	Awarded by Bill Green, President
1996	Fred Zinani, Pat Oliverio	Awarded by Bill Green, President
1997	Bill Green	Awarded by Joe Serochi, President
1998	Charlie Lambert	Awarded by Joe Serochi, President
1999	Tom & Jill Frische, Burdette Pontier	Awarded by Barry Brill, President
2000	Paul Ganser, Sam Downing	Awarded by Barry Brill, President
2001	Carol Brill	Awarded by Bill Green, President
2002	Gene & Lori Fields	Awarded by Bob Clough, President
2003	Mike & Pam McClendon, Pam Siegal	Awarded by Mike Spencer, President
2004	Barry Brill, Tom Frische	Awarded by Mike Spencer, President
2005	Bob Hussman	Awarded by Marshall Lim, President
2006	Bob Clough	Awarded by Marshall Lim, President

Other Awards Given

1995 Pappy's Porch Rebuild to Gene Fields
Foreman/Referee
Awarded by Joe Serochi, Vice President

1999 Award of Appreciation to Joe Serochi
Years of Directing the EV Untalent Show
Awarded by Barry Brill and Tom and Jill Frische

2000 Fireman of the Year Award to Elmer Campbell
7/17/00, Peterson Cabin #14, had an electrical fire that was discovered by Elmer Campbell. Elmer called the Fire Department, helped put out the fire and saved EV!
Awarded by Barry Brill, President

2006 EV Recognition Award to Wes & Sam Downing
President and Secretary, For Service Over and Above the Call of Duty
Replaced a 1974 Plaque that was stolen from Downing's Cabin
Awarded by Marshall Lim, President

THE PARABLE OF THE EVITES AND THE TVITES

A parable is a story with a moral. This is a parable about Enchanted Valley.

Once upon a time there was a beautiful valley in the woods with tall trees, a running stream and sunny open places. It was called Enchanted Valley--EV for short. In the valley lived a happy group of people of all ages from the very, very old to the very, very young. They lived in grand castles and in little Hobbitt Holes on the side of the hills. These people were called the Evites--they all knew each other and took care of each other.

The Evites worked hard all week and you couldn't find them anywhere in the valley--but come the weekend in the sunny summertime, the Evites would come out of their castles and down from their Hobbitt Holes to the middle of the valley to a place they called Pappy's Porch. They built fires, cooked meals, laughed, sang and shared stories of family life. They were a happy group.

Then one day a wizard came by EV selling magic boxes on wires. Some Evites bought the magic boxes and put them in their castles and their Hobbitt Holes and watched the pictures the boxes showed. At first they watched just a little and still came down to the valley to the fires and fun. But slowly these Evites with the boxes in their homes stayed home more and more and came down to the valley less and less...until some of them hardly came at all. And the boxes were called TVs and the people who stayed home to watch them were called Tvites.

After a while the Tvites became tired of what was on their boxes--the entertainment--so the wizard changed what was on the TV boxes to what he called reality TV. And the Tvites watched even more---and came down to the valley not at all.

Now, I want you to look up---what you see there through that hole in the trees---that is the sky. And I want you to reach out and touch one of the great trees that reach up to that sky---the trees like it. And now, I want each of you to reach out and shake hands with someone right there beside you. Look at them---they are Evites. You are Evites---big Evites, little Evites, old Evites and young Evites. And THIS IS REALITY! The things the Tvites see on their boxes are not reality. You can't reach out and touch a Tvites---they aren't here.

So enjoy yourself here at EV---keep in touch with the trees and the sky and the valley and the other Evites. And should you come across one of the Tvites somewhere in your journeys, tell them what they are missing. Remind them of the good things about EV---they can be saved by the smallest nudge.

-----Storytelling courtesy of Paul Bolinger

CONCLUSION

Since the 1992 History of Enchanted Valley book was printed, Enchanted Valley has continued to be a very special "family getaway." The hard work and dedication of many shareholder families has continued to improve both facilities and programs. This new volume to the original History of Enchanted Valley book has attempted to capture the events and development from 1992 to 2007. Volume II has updated the sections of the original history book and detailed some new sections that cover events during this period.

During the past fifteen years "EV" or "The Valley" has been the site of many changes. Facility improvements and traditional as well as new events have continued to provide fun and excitement. The involvement of original and new families have kept EV going strong. Many second-generation families have continued to enrich these traditions.

Enchanted Valley continues to be a safe and healthy environment for everyone. EV has always been a place to share those special times with family and friends.

We hope you have enjoyed Volume II, which continues the shared memories of Enchanted Valley families. The spirit of EV lives on!

Enchanted Valley History Committee 2007
